DETAILED ACTION

Claim Rejections - 35 USC § 102 and 35 USC § 103

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 4 and 6-12 are rejected under 35 U.S.C. 102(b) as being anticipated by McGovern et al.
4. McGovern et al. teaches (independent claim 1) a recruiting website, which reads on a station, for attracting potential recruits and for collecting key data from the recruits at a remote location without requiring the presence of recruiting personnel, comprising: the *employer web site or remote web site*, which reads on an advertising display (col. 4 lines 8-26, col. 13 lines 41-50, col. 15 lines 8-9 and Fig. 24); a *remote site computer 44*/electronic collection system for instructing the recruit and collecting key data from the recruit (col. 14 line 66 to col. 15 line 15); and a processing system, either a *remote site computer 44* or *company computer 42*, for storing the collected data in electronic format (col. 16 lines 5-11 and col. 16 line 55 to col. 17 line 10).
5. McGovern et al. also teaches at the citations given above claims 4, 6, 7 and 10-12. McGovern et al. also teaches claims 8-9 (col. 18 lines 25-27).
6. Claims 3, 5, 13 and 14 are rejected under 35 U.S.C. 103(a) as obvious over McGovern et al. McGovern et al. does not teach audio, multimedia and multilingual display and data acquisition. Because it would enhance sales, it would have been obvious to one of ordinary

skill in the art, at the time of the invention, to add audio, multimedia and multilingual display and data acquisition to the teachings of McGovern et al.

7. Claim 2 is rejected under 35 U.S.C. 103(a) as obvious over McGovern et al. in view of Barcelu. McGovern et al. does not teach a free-standing cabinet for housing the advertising display. Barcelu teaches a free-standing cabinet/*kiosk 10* for housing the advertising display (col. 5 line 26). Because Barcelu suggests this facility for recruiting (col. 4 lines 41-42), it would have been obvious to one of ordinary skill in the art, at the time of the invention, to Barcelu to the teachings of McGovern et al.
